## Experience

---

### Freelance Frontend Developer

May 2022 - Current

Self Employed

- Transformed a completely static HTML, CSS and JavaScript single page application into an interactive user interface using animations, transitions and carousels
- Delivered 5 professional websites using HTML5, CSS3 (+ SCSS, BEM) and JavaScript best practises
- Improved website performance by compressing, caching and lazy loading images and components
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

### Open Source Club Support

July 2022 - Current

NOSK [Nepal Open Source Klub]

- Contributed on some Open-Source projects which fostered my collaboration skills and created some free, accessible software for the benefits of global community
- Supported 500+ students using HTML, CSS, Flexbox and JavaScript best practises
- Utilized debugging best practises using Google Chrome inspect element tooling

## Projects

---

### Portfolio Website | [Website](#) | [GitHub](#)

- Created an elegant static fully responsive ePortfolio website, highlighting my work with a timeless aesthetic, ensuring easy accessibility and a seamless user experience.

### Ecommerce Store | [Website](#) | [GitHub](#)

- Developed a user-friendly library e-commerce store website with a clean and intuitive interface, enhancing the online shopping experience for customers while emphasizing product accessibility and a visually engaging display.

### TReact Website | [Website](#) | [GitHub](#)

- Engineered a polished static tReact website that seamlessly combines cutting-edge design and performance, offering users a swift and visually immersive browsing experience, while showcasing my proficiency in web development.

### Travel Agency | [Website](#) | [GitHub](#)

- Created a sleek, all-in-one static travel agency website for seamless trip planning and booking, optimizing user convenience and travel experience.

### Weather App | [Website](#)

- Developed a weather app with a responsive user interface using OpenWeatherMap API where users can enter the name of a city and get different weather details like temperature, wind speed, humidity, and a 5-day forecast.

### **ChatBot | [Website](#)**

- Developed an elegant chatbot using OpenAI API having responsive user interface, ensuring a seamless experience across various devices.

### **AI Image Generator | [Website](#)**

- Built an AI powered Image Generator website using OpenAI API, where users enter their prompt, choose the number of images they want then AI will create images based on the user prompt.
